

Paul Miller

Vice President of Marketing
Converged Data Center Infrastructure
Hewlett Packard Enterprise

Paul Miller is vice president of Marketing in Hewlett Packard Enterprise's Converged Data Center Infrastructure business unit. Under Miller's direction, the organization is responsible for Marketing for HPE Synergy, HPE OneView, HPE BladeSystems, and the Converged and Hyper Converged Solutions portfolio.

Miller's team consists of product marketing and technical marketing experts who develop marketing content and enable sales of Composable Infrastructure, Infrastructure Management, and workload optimized solutions spanning, Big Data, Cloud, End User Computing, and Enterprise Applications.

Previously, Miller was vice president of Solution Engineering in HP where he led a team of engineers developing integrated workload systems. Miller also held various senior marketing roles including vice president Worldwide Marketing for Enterprise Server, Storage and Networking (ESSN) at HP, where he launched the HP Converged Infrastructure portfolio and strategy across multiple business units. He also served as vice president of Marketing for Industry Standard Servers (ISS) and HP BladeSystem, spearheading the marketing strategy for the fastest growing division in HP.

Miller has more than 20 years of experience in the high-tech industry, leading R&D, Product Management, Product Marketing and Alliances teams. Prior to joining HP, he held positions at IBM in engineering, software development, services, planning and strategy.

Miller earned a bachelor's degree in mechanical engineering from the University of Wisconsin and a master's degree in business administration from the University of California at Berkeley's Hass School of Business, with a dual emphasis in marketing and finance.
